The PointClickCare Pharmacy Exchange™ is an exclusive network of pharmacies, throughout North America, who have partnered with us to deliver all the benefits of an Integrated Medication Management (IMM) solution to PointClickCare customers.

15,000 long-term and post-acute providers will notice your services.

As a Pharmacy Exchange partner, your pharmacy services get noticed by more than 15,000 long-term and post-acute care providers by integrating with the industry's leading EHR platform.

Reduce service provider's burden and risk.

PointClickCare customers, working with Pharmacy Exchange partner pharmacies, gain a best-in-class IMM solution, that affordably streamlines medication processes while improving resident safety and compliance.

With IMM, service providers can reduce the burden and risk in managing complex medication regimens. This NCPDP-based solution, combines three components of the PointClickCare Electronic Health Record (EHR) platform, which work seamlessly to provide maximum benefit to a provider's medication administration processes and workflows. Improvements between the PointClickCare electronic Medication Administration Record (eMAR) and Order Management solutions, and the pharmacy dispensing system, result in efficiencies during the placement of medication orders and reduces the chances of medication errors.

Participation in the PointClickCare Pharmacy Exchange comes with many advantages to partner pharmacies, including:

Improved competitive differentiation

- Gain exposure to more than 15,000 long-term care providers across North America.
- Increased opportunity inclusion rates by being partnered with the market leading long-term care EHR platform.
- Offer an obtainable plan for comprehensive EHR deployment to promote medication safety, operational efficiency, and cost control.

Enhanced customer loyalty

- Strengthen relationships with IMM and pharmacy services technologies by serving as an innovative leader and expert in long-term care.

Simplified, complete solution

- Simplify operations and reduce costs with a single Order Management and eMAR solution, fully integrated to pharmacy-side dispensing technologies.
